

## Press Release

# Informa Systems selected to Implement Certification and Training System for the State of Nebraska

---

*San Antonio, Texas, Nov 5, 2020*

The State of Nebraska, through the Nebraska Law Enforcement Training Center (NLETC) has selected the *InformaOne* software solution from Informa Systems to manage their Law Enforcement Officer Training.

The NLETC is dedicated to educate law enforcement officers within the State of Nebraska. NLETC oversees approximately 300 agencies and academies and is responsible for the Training and Certifications of all the Officers within the state. NLETC selected *InformaOne* from Informa Systems.

NLETC as part of their Academy Training was able to replace their paper-based tests with a streamlined online testing using the *InformaOne* Test module. This is a major advantage since it provides immediate test feedback through the extensive reporting.

The *InformaOne* systems is also used to manage the classroom scheduling for the basic academy, with multi classrooms and instructors and allows efficient scheduling, whilst avoiding Instructor or classroom conflict. Furthermore, the advanced rostering options make it easy to roster the wide range of training from classroom, to assessments to firearms.

NLETC have now replaced a multitude of different systems with the single *InformaOne* system that for the management of Certification and Learning for all Officers in the State of Nebraska.
